CERL Thesaurus Assisted Searching Output Format

Description of Elements

<record>

content	**<info>**	Additional information to distinguish one entity from another. Might be displayed in the Assisted Search screen at the beginning of each record.
	<nameForms>	Headings and variant name forms that should be used for query expansion
	<identifiers>	Record identifiers of the underlying source records and the CT record identifiers
attributes	**id**	CT record identifier (field 001)
	type	Indicates the type of the current record. It may hold one of the following terms: • placeName • personalName • imprintName • corporateName
	xmlns	XML-Namespace

<info>

content	**<display>**	Full form as given in the first heading field, including filing-qualifiers and non-sorting elements.
	<biographicalData>	Biographical or activity dates of the described entity (first occurrence of field 340)
	<activityNote>	Activity note (first occurrence of field 350)
	<geographicalNote>	Geographical Note. Only used in place names records (first occurrence of field 356)

<display>

content	*#PCDATA*

<biographicalData>

content	*#PCDATA*

<activityNote>

content	*#PCDATA*

<geographicalNote>

content	*#PCDATA*

<nameForms>

content	**<headingForm>**	Name forms given in the heading fields (2XX), without filing qualifiers.
	<variantForm>	Name forms given in the variant name forms fields (4XX), if the first indicator holds "0" (i.e. non-ficitional forms)
	<fictionalForm>	Name forms given in the variant name forms fields (4XX), if the first indicator holds "1" (i.e. ficitional forms)

<headingForm>

content	*#PCDATA*

<variantForm>

content	*#PCDATA*

<fictionalForm>

content	*#PCDATA*

<identifiers>

content	**<identifier>**	Record identifier from the CERL Thesaurus or from the original record.

<identifier>

content	*#PCDATA*	
attributes	**type**	Holds one of the following values:
		• cerlthesaurus
		• other
	source	Indicates the source file, where the record identifier has been taken from (801 $a and $b). Used only, if the type-attribute holds "other"

Sample Records
