690

690   PERSONAL NAME USED AS SUBJECT – ALTERNATIVE FORM *(CERL field)*

Revision 1. The reference to the additional subfield $g, Expansion of Initials of Forename, has been removed. This subfield was added to the UNIMARC bibliographic format, field 600, in Update 1 (1996) and is therefore covered by the general note under Subfields below.

Field definition

This field contains an alternative form of a name recorded in field 600.

Occurrence

Optional. Repeatable.

Indicators

Indicators are as for field 600.

Subfields

Subfields are as for field 600.

Notes on Field Contents

This field contains an alternative form of a name found in field 600 to serve as an additional access point. It is provided as a temporary measure until a fully integrated authority file can be linked to the CERL database. Names in field 690 are not directly linked to the related established heading recorded in field 600.

Related Fields
