Marina Ruiz Fargas

The former owners of the CRAI Biblioteca de Reserva (Universitat de Barcelona) and their database

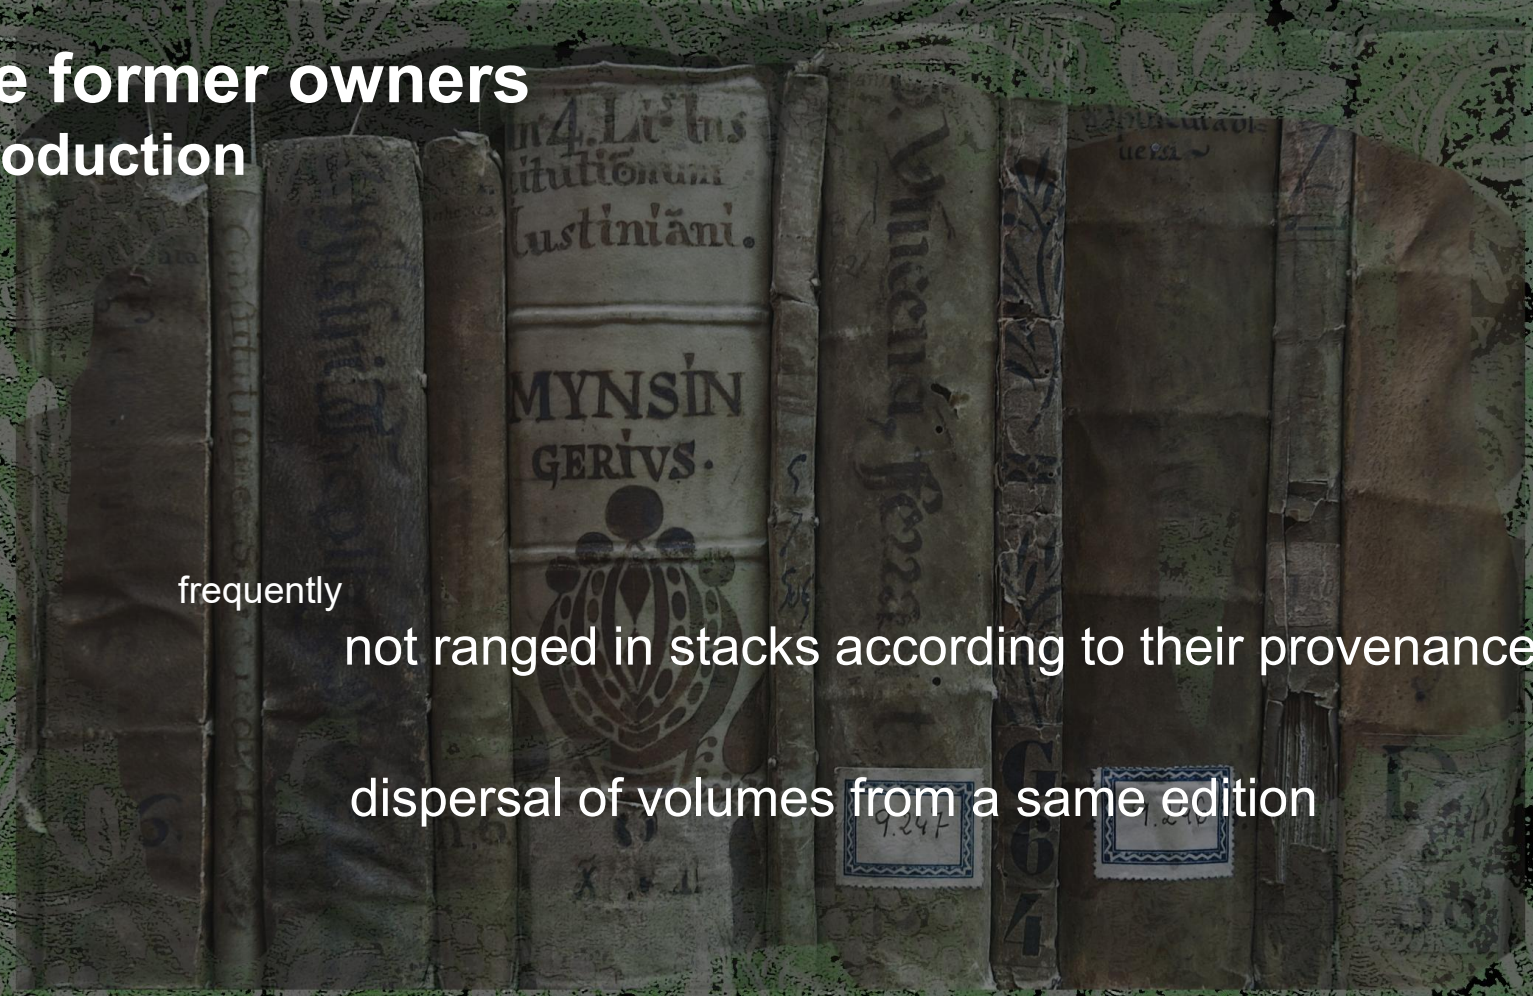

REBIUN-CERL Conference. Universidad de Salamanca, March 15th 2016

The former owners
Introduction

Books mostly from suppressed friaries of Barcelona:

- 2.220 manuscripts
- 975 incunables (772 editions)
- 120.000 copies of books printed from 1501 to 1820

The former owners
Introduction

frequently

not ranged in stacks according to their provenance

dispersal of volumes from a same edition

The former owners
Recording provenances: historical survey

From the beginning of online cataloguing (1986), provenance information recorded in copy-specific field as free text

From 2009 a new system created:

- transcription of the mark & date in the copy specific field
- creation of authority records for the owners
- secondary entry for the owner in the bibliographic record
- launching of the database

The former owners
Recording provenances: historical survey

All institutions are recorded in the database

A selection is applied in case of persons, based on:

- role in cultural and social history
- important presence in terms of number of copies
- belonging to specific groups (ex. women)
- singularity of the ownership mark itself

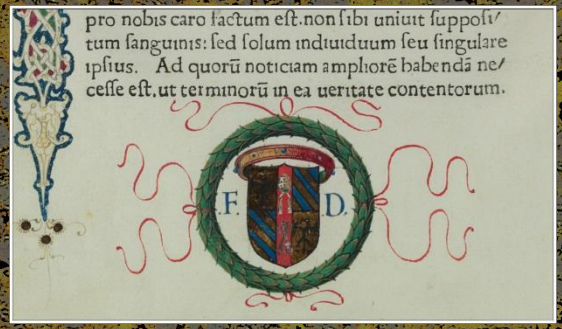

The former owners
Recording provenances: historical survey

Examples of persons selected for their role in cultural and social history:

- Bernardo Aldrete, humanist from Málaga, 17th cent. [XVII-8598]

- Federico da Montefeltro, Italian *condottiero*, lord of Urbino, 15th cent. [Inc. 209-1]

The former owners
Recording provenances: historical survey

Examples of persons selected for their conspicuous presence in the collection:

- Baltasar Gandullo, parochial vicar in Vilanova de Cubelles, 18th cent. [B-59/7/9]

The former owners
Recording provenances: historical survey

Examples of persons selected for their belonging to specific groups, like women:

- Juliana Morell, humanist from Barcelona, 16th-17th cent. [XVI-802]

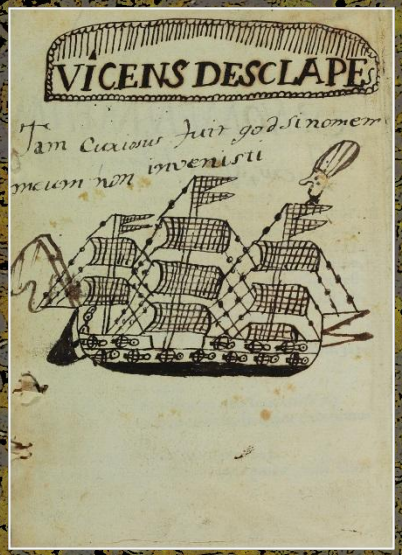

- Manuel de Pazos y Montenegro, hermit in Sant Marc de Manresa, 18th sec. [B-77/4/5]

The former owners
Recording provenances: historical survey

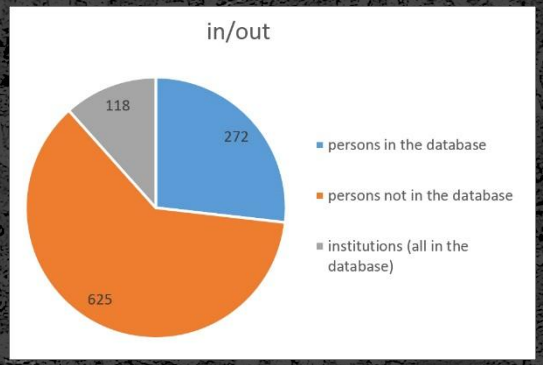

Examples of persons selected for the singularity of the ownership mark itself:

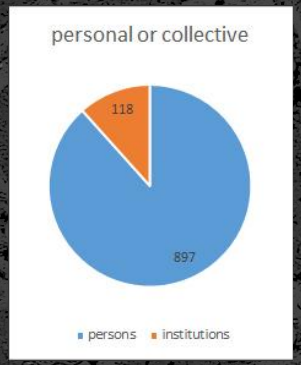

- Vicenç Desclapés, probably a student, 18th cent. [B-18/6/1]

Conclusions

Needs and limitations:

- bigger presence on the web
- cooperative projects with Catalan and Spanish libraries
- not all the persons in the database
- description of bindings and coats of arms

But:

- we take part of Rebiun, MEI and CERL Thesaurus
- in the near future: new cataloguing software, RDF format and RDA
- working on provenances enhances the library collection
- ... and fun

Thank you
Gracias
