Message of the day
The WorldCat Copyright Evidence Registry (CER) pilot is a community working together to build a union catalog of copyright evidence based on WorldCat metadata, additional information contributed by libraries, and by other interested organizations. The CER allows you to search for, create and share information about the copyright status of books being considered for digitization and/or preservation.
The CER is searchable at http://www.worldcat.org/copyrightevidence. Those wishing to contribute data are invited to log in using their Connexion authorization or a WorldCat.org authorization.
Visit http://www.worldcat.org/copyrightevidence/registry/about for more information.
